

**JOINT FILL**

**CROSS-FIRE SPRAY**

**NUCLEATED SPRAY/POUR**

## SYNERGY SERIES

**LPG™ Proportioner · LOCK N LOAD Gun™ · Synergy Chemistries**

SPI introduces the Synergy Series System(s) featuring the LPG™ (Low Pressure Gear Proportioner). The LPG™ is designed to work seamlessly with the Synergy Series Chemistries, including a variety of spray and pour polyurea elastomers, and spray and pour foams. Output up to one gallon per minute.

### LPG FEATURES

Lightweight and Portable · Uses 110 volt & can plug into standard electric wall outlet · Simple to Operate · Modular Design · Low Pressure, Low Heat · Minimal Field Maintenance or Repair · Easy to Change Replacement Proportioner Pumps

### NEW INDUSTRY INNOVATION FROM SPI

The technological advancement made with the LPG™ Proportioner technology:

- Dramatically reduces pin holes and blow holes on porous surfaces, including concrete, wood and EPS.
- Effectively resolves shrinkage problems normally associated with hot sprayed plural component elastomers.

Silica Air-Dryer can be reused.

Modular components for minimal field maintenance and repair. Low cost pumps that can be changed in ten minutes versus rebuild or repair.

On board compressor provides positive material pressure to pump inlets.

Digital flow meter displays gallons and tenths.

The LPG™ Proportioner Consumes less electricity than a hair dryer. Any single phase (15 amp) receptacle will power the LPG™.

**LOCK N LOAD™ GUN**

The **LOCK N LOAD™** Gun (with Modular On-Off, Pressure and Output Control) is available with the following quick change attachments:

**AIRLESS CROSSFIRE SPRAY**  
Reduces airborne particles by more than 75%

**NUCLEATED SPRAY/POUR FOAM**  
Synergy Series Polyurethane Foam and Polyurea Elastomers

**JOINT/CRACK FILL**  
Self-leveling, semi-rigid polyurea elastomer. Ideal for filling or replacing construction joints, random cracks, joint faces, and spalls.

**NUCLEATED SPRAY/POUR FOAM**

Synergy Series Polyurethane Foam and Polyurea Elastomers

**Crossfire Spray Pattern**
